Dear 8th grade Families:

The National Alliance on Mental Illness (NAMI) will be presenting to our 8th grade scholars on Tuesday, December 12th during their Latin classes. NAMI is the largest organization which helps to build and improve those lives who are affected with mental illness.

"Ending The Silence" is a program which helps middle schoolers understand mental illness. The speakers will discuss warning signs and help to clear up myths about mental illness. During the presentation, scholars will get to hear from someone who has a mental illness and what life is like for him/her.

If you have any questions, please do not hesitate to contact Ms. Robbins - jrobbins@motthall2.org
